

This page highlights the Superhuman suite. It starts with a header showing logos for Doordash, OpenAI, TED, Zapier, Figma, and Brex, followed by the text "Trusted by the most innovative companies in the world". Below this is a "Your Superhuman suite" section with a "Get the suite" button. It features four tabs: Mail, Grammarly, Coda, and Go. The Mail tab is active, displaying the headline "The most productive email app ever made" with the subtext "Fly through your inbox twice as fast as before, never drop the ball again, and save 4 hours every single week." and a "Learn more about Mail" link. To the right is a preview of the Superhuman inbox interface with a colorful gradient background, showing notifications for Arlene McCoy (recruiting), Savannah Nguyen (Superhuman G2 Review), and Kristin Watson (signature).
